

CLAUSEN CARPET SOLUTIONS

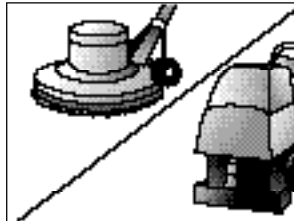

DUAL *SANITIZING/DEODORIZING CARPET CLEANER

**KILLS PUTREFACTIVE
BACTERIA**

**REGISTERED BY THE
UNITED STATES EPA**

**FOR ALL METHODS
AND EQUIPMENT**

**REMOVES GREASY SOIL
WITHOUT SOLVENTS**

DESCRIPTION

The first formula registered by the U.S. EPA as a sanitizing carpet cleaner to kill putrefactive bacteria Still the only formula developed specifically for carpet. Others may kill similar bacteria, and clean the carpet, but the DUAL formula excels in resistance to resoiling.

USES

Use on all colorfast carpet. Low foam for any method or equipment (extraction, bonnet, rotary shampooing). Now EPA registered for Low Moisture cleaning and specifically for rejuvenating carpets stained by mold or mildew. Other products do not have this claim.

HOW TO USE:

EXTRACTION: Mix 2 ounces per gallon of water. Inject and extract as you would with other "steam cleaning" shampoos.

BONNET CLEANING: Mix 1 part cleaner with 8 parts (16 oz. per gallon) water. Spray on carpet at the rate of 200-300 sq. ft. per gallon. Scrub with rotary floor machine equipped with spray-clean bonnet or pad.

LOW MOISTURE SPRAY & BRUSH CLEANING: Mix 1 part cleaner with 8 parts water (16 oz. per gal.). Spray evenly over carpet to remain wet 10 minutes. Then brush into carpet manually or with light machine.

SPOT CLEANING: Mix 1 part cleaner with 8 parts water and apply liberally with sprayer or flip cap. With soft cloth or brush, rub spot from edge towards its center.

NOTE: Vacuum carpet before cleaning. Test for color fastness. Apply dilute cleaner to a small out of way spot. Rub with clean white cloth. If color transfers or changes, a water based product should not be used.

After cleaning, place aluminum foil or wax paper under legs of furniture, until carpet is dry. Over wetting can cause shrinking.

PACKAGING

Available in gallon containers.

BENEFITS

EPA REGISTERED - EPA number (1459-74) indicates DUAL was made specifically for carpet. Numbers for competitive products confirm they are primarily for hard surfaces.

VERSATILE - Cleans, sanitizes and deodorizes with any liquid method and equipment. EPA registered for low moisture use.

ERASES FOUL ODORS - Contains quaternary ammonium compounds to kill putrefactive bacteria. Proven odor counteractant erases odors in the air.

DEEP CLEANING - Based on patent for emulsifying heavy, greasy soil without solvents. Quickly, safely penetrates, dissolves and lifts oils and greases. Automatically cleans hoses during use.

SPECIFICATIONS

TYPE DETERGENTS.....	non-ionic
SOLUBILITY IN HARD WATER.....	complete
COLOR.....	light amber
ODOR.....	AIRICIDE®
FLASH POINT.....	none, non-flammable
pH-1:64 USE DILUTION.....	11.0 ± 0.5
SODIUM DODECYL SULFATE.....	none
FOAMING.....	low
SHELF LIFE.....	one year at room temperature
EPA REGISTRATION NUMBER.....	1459-74
