

CLAUSEN CARPET SOLUTIONS

KILLER DEFOAMER CONCENTRATE

**SAVES UNNECESSARY
DUMPING OF FOAM**

**JUST ADD KILLER
TO RECOVERY TANK**

**PROTECTS MOTORS
FROM DAMAGE BY FOAM**

**USE ONLY 1 OR 2 OZ. PER
GAL. CAPACITY OF TANK**

DESCRIPTION

Works immediately with lasting effectiveness against foam from rug shampoos, strippers, cleaners, etc...Without troublesome suds, recovery tanks require less frequent dumping to make work easier and faster. KILLER protects equipment by preventing overflow that can damage vacuum motors and electrical parts.

USES

Eliminates foam in carpet extractors, automatic floor scrubbers, wet vacs, sinks, in vessel and tank cleaning, etc.

HOW TO USE

Add 1 to 2 ounces per gallon capacity of the recovery tank while empty before starting the job. If additional defoamer is called for during the job it may be added through the vacuum hose...The defoamer should not be added to the cleaning solution or puddled on the floor. It could affect the cleaning solution or affect later applications of floor finish.

PACKAGING

Available in gallon containers.

BENEFITS

SAVES WORK - Allows liquid recovery tanks to fill to complete capacity. No more too-soon automatic shut off or unnecessary dumping when tanks are only partially full.

EASY TO USE - There's nothing to mix. Just add Killer to any tank where foam or suds can be a problem.

SAVES EQUIPMENT - Prevents overflow of foam or liquid that can damage electric motors, switches and circuitry.

HIGHLY CONCENTRATED - Just an ounce or two per gallon capacity of the recovery tank is all that is necessary.

MULTIPLE USES - Killer eliminates foam in carpet extractors, automatic floor scrubbers, wet vac pick up tanks, sinks, in cleaning of storage tanks, cooking vessels, etc.

SPECIFICATIONS

APPEARANCEmilky liquid
ODOR.....odorless
pH.....7.0 ± 0.5
FLASH POINT.....none to boiling
BOILING POINT.....near 212° F
SPECIFIC GRAVITY.....1.000 ± 0.005
SHELF LIFE.....one year minimum
